

PREPARING DESERTIFICATION AREAS FOR INCREASING CLIMATE CHANGE

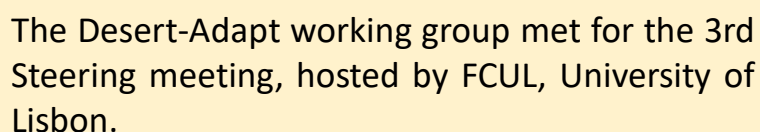

NEWSLETTER

LIFE16 CCA/IT/000011

| Issue 14 | Date: December 31th 2019

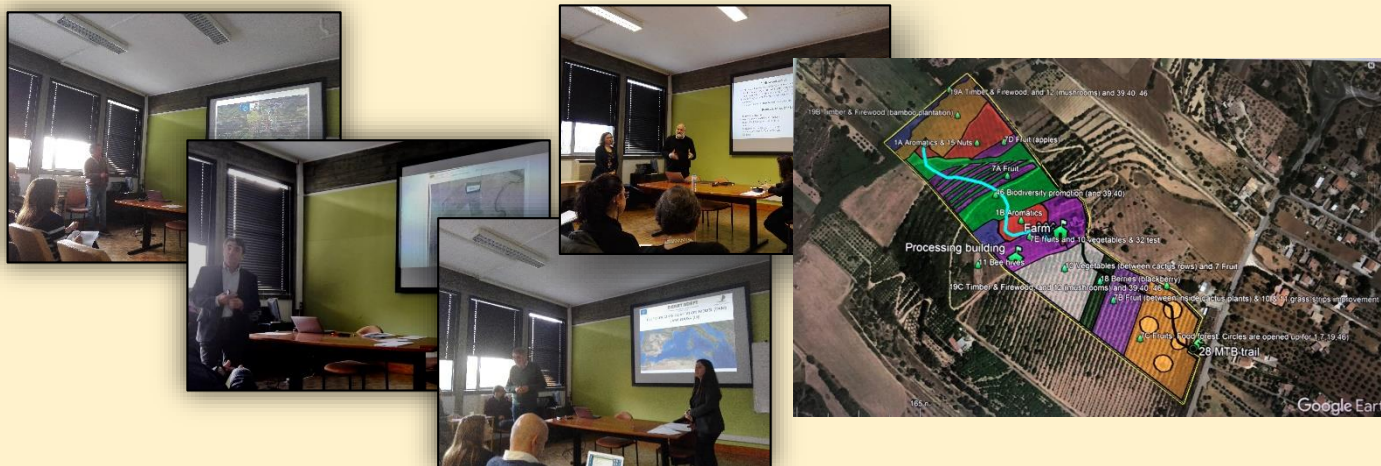

3rd Steering Committee Meeting

24-25 november 2019 - University of Lisbon – Faculty of Sciences

During the first day all the landowners presented their finalized Desertification Adaptation Plans to the technical group, to colleagues and to our group of external experts. The discussion was lively, interesting and rich of interesting feedbacks and ideas.

The DAM plan will be implemented in the field and by next spring/summer the project will start opening to the public with dedicated open days. Stay connected for more information.

We are ready! In the coming months we will be presenting each DAM plan as a brief introduction in the newsletters and you will be able to see more details of each plan on a dedicated page on our website.

We hope it will inspire you to work with us and participate as replicator with your farm and Desert-Adapt team support. If you want to know more contact us and follow our webpage and Facebook page.
