### Field Implementation actions of partner L2 (IT) Economic functions to support biodiversity

The Desert-Adapt partner A&T (L2) installed beehives in the farm to support pollination and biodiversity (environmental function) while producing honey as marketable product (economic function). This is an example of win-win option for sustainable land management.

### Desert Adapt Project 4<sup>th</sup> steering meeting 18<sup>th</sup> May 2020

The Desert-Adapt project has held the 4th steering meeting on webex platform due to covid-19 limitations on the 14<sup>th</sup> of May 2020. The meeting was very pleased to host the NEEMO monitor and the EASME officer Mrs Claudia Guerrini, who were presented the results of first 2 1/2 years of the project and a virtual tour of the project sites presented by our field implementation partners (FIPs) and landowners which allowed to see the ongoing field implementations .
